EDUCATION

Lokenete shamrao peje government college of engineering| 2027-2030
- Relevant Coursework: data science,data analysis, artificial intelligence,python
- GPA: 8.08

M.S.NAIK junior high school XII | 2023
- .Topped in science , mathematics,biology
- percentile :80%

M.S.NAIK school X |2021
- . Percentile :90%

CERTIFICATES

SQL and databases IBM
Data Analytics| google
Excel | onestop
python| onestop
front end development| great learning

PROJECTS

chatbot using rule based logics
- Developed a rule-based chatbot to handle FAQs using Python and decision trees.
- Built a simple rule-based chatbot for automated user query handling.
- Created a rule-based chatbot using Python with predefined conversation flows.

Fraud detection
- Built a fraud detection model using ML to identify suspicious transactions.
- Applied feature engineering and anomaly detection to improve fraud classification.

EXPERIENCE

- **Deloitte | Intern |May 2025**
- **amazon |Intern |march 2025**

SKILLS

Python | R | SQL | HTML | CSS | JavaScript | Tableau | Excel | Data Analysis | Data Visualization | AWS | Elastic Beanstalk | Solutions Architecture | Database Management | Problem Solving | Analytical Thinking | Technical Documentation | Client Communication
